## *Safety Data Sheet*

### Section 3 – Composition/Information on Ingredients

Ingredient name	CAS No.	%(weight)
Pentafluoroethane	354-33-6	≥99.00

### Section 4 – First Aid Measures

<b>Inhalation</b>	Remove to fresh air Oxygen or artificial respiration if needed If unconscious, place in recovery position and get medical attention immediately
<b>Skin</b>	Flush exposed skin with lukewarm water (not hot), or use other means to warm skin slowly Remove contaminated clothing and shoes Get medical attention if frostbitten by liquid or if irritation persists
<b>Eyes</b>	Immediately flush with large amounts of water for at least 15 minutes Get medical attention if irritation occurs
<b>Ingestion</b>	As this product is a gas, refer to the inhalation section
<b>Note to physician</b>	Immediate medical attention is not required When symptoms persist or in all cases of doubt seek medical advice

### Section 5 – Fire Fighting Measures

<b>Extinguishing media</b>	Pentafluoroethane is a fire extinguishing media. Use media appropriate for surrounding material
<b>Special hazards arising from the substance or mixture</b>	Thermal decomposition can lead to release of irritating or toxic gases/vapors: carbon oxides, halogenated compounds Contains gas under pressure. In a fire or if heated, a pressure increase will occur and the container may burst or explode
<b>Special protective equipment for firefighters</b>	Wear self-contained breathing apparatus with a full face-piece operated in positive pressure mode and chemical-protective clothing. Prevent fire extinguishing water from contaminating surface water or the ground water system

### Section 6 – Accidental Release Measures

<b>Personal precautions, protective equipment and emergency procedures</b>	Refer to SECTION 8 for personal protective equipment. Prevention of skin and eye contact. Ensure adequate ventilation. Remove all sources of ignition. Shut off gas supply if this can be done safely. Isolate area until gas has dispersed

## *Safety Data Sheet*

<b>Environmental precautions</b>	Do not discharge into drains/surface waters/groundwater
<b>Methods and material for containment and cleaning up</b>	Evacuate area. Keep upwind. Stop leak if without risk. Ventilate area especially low places remove open flames and heating elements. Disperse gas with floor level forced air
<b>Reference to other SECTIONS</b>	See SECTION 7 for information on safe handling See SECTION 8 for information on personal protection equipment See SECTION 13 for information on disposal

### **Section 7 – Handling and Storage**

<b>Handling</b>	Do not puncture or incinerate container. Use equipment rated for cylinder pressure. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. Use a suitable hand truck for cylinder movement.
<b>Storage</b>	Keep container tightly closed and in a cool, well-ventilated place. Keep out of direct sunlight. Keep away from heat and ignition sources.
<b>Packing material</b>	Steel drum
